

## Technical Notes

GCM10 Bosch Mitre Saw distinguishes itself from the larger GCM12 Mitre Saw of the same quality with a 254mm blade diameter rather than the 305mm as standard on the larger machine, the GCN10 Mitre Saw combines power with absolute precision, its strengths include a powerful 1800w motor, adjustable locating stops and nine locking positions for precise cuts  
This Bosch Mitre Saw also features spindle lock for easy and safe blade changes
